JANUARY – MARCH EDITION

MESSAGE FROM THE PRINCIPAL

Aadyant School is renowned for its pioneering role in the field of education. Our primary focus is on establishing and maintaining high academic standards at all levels. We strongly believe in fostering the holistic development of every child. It is truly heartening to see our collective commitment to academic excellence, personal growth, and mutual progress. Looking back on the past few months, I am proud to highlight the outstanding achievements of our students in various academic and extracurricular pursuits. I am thrilled to share with you the exciting news of our school's continuous growth and development. Throughout the past year, we have witnessed incredible advancements in different aspects of our academic and extracurricular programs, as well as in our overall infrastructure and facilities. One of the most notable improvements is the introduction of our new areas designed to be more engaging, inclusive, and aligned with the needs of our students. It empowers teachers to deliver dynamic and meaningful lessons that foster curiosity and cultivate a love for learning. We firmly believe that by embracing innovative teaching techniques and incorporating diverse perspectives, we can better equip our students for success in an ever-evolving world.

"The beautiful thing about learning is that no one can take it away from you "

- B. B. King

Parent Testimonials

Thank you for your valuable feedback

We made the decision to enroll our children, Shanaya and Seerat, at Aadyant School, and it's been one of the best choices we've made for their education. From the moment they stepped into the school, we knew it was a perfect fit for them. Shanaya has flourished in the vibrant and nurturing environment at Aadyant. She eagerly looks forward to each day, thanks to the engaging curriculum and dedicated teachers who go above and beyond to foster her academic and personal growth. As for Seerat, her experience at Baby Birdies has been nothing short of fantastic. The attentive and compassionate teachers, have created a warm and supportive atmosphere where she feels happy and valued. What sets Aadyant apart is not just its academic excellence but also its emphasis on holistic development. From extracurricular activities to cultural exposure, our children are receiving a well-rounded education that enriches their lives in countless ways. We appreciate the school's efforts to blend modern education with traditional values, creating an environment where our children can thrive academically, socially, and culturally. Thank you, Aadyant, for being more than just a school – you're a cornerstone of our children's growth and development. Warm regards,

-Shivani & Rajat

This newsletter gives you a peep into the world of teaching and learning at Aadyant. We, in this edition, focus on interesting activities and celebrations that have been conducted in the month of January, February and March.

ACADEMICS

MUSIC CLASS

In the lively pre-nursery music class, tiny fingers eagerly explore colorful instruments, creating a symphony of giggles and joyful melodies. Together, children sway to the rhythm, discovering the magic of music through playful activities that spark their curiosity and nurture a love for harmonious sounds. Various instruments such as the congo, bongo, and piano are incorporated, along with a few other musical instruments.

CLAY MOULDING

Clay moulding is a great activity that helps children in many ways. It works on the fundamental aspects of play-based learning. Kids love it and it helps them develop important life skills such as problem-solving, planning, exploring, evaluating, and constructing shapes. Clay modeling in small groups allows for fun, communication, sharing, and also improves social skills. This activity nurtures a child's creativity, self-confidence, and boosts their imagination. At Aadyant, clay modeling is an important part of our curriculum. Children learn to mould different objects on the potter's wheel as well as through free play and using stampers. Playing with clay has a calming effect on children and is a great way to allow young children to physically express their emotions. It also promotes sensory development. While working with the clay, kids learn to concentrate. The activity builds self-esteem and helps children acquire a sense of competency, power, and control over their environment.

ORGANIC FARMING

Kids are the heroes of the harvest! From watering our crops to ploughing the soil, our little ones are learning the ropes of sustainable agriculture while having a blast. This month, they've been busy harvesting fragrant fenugreek and pulling up vibrant radishes, adding fresh flavors to our meals straight from the earth. With each task, they're discovering the importance of nurturing our land and respecting nature's rhythms. Their dedication reminds us that small hands can make a big difference in growing healthy food and protecting our planet. Stay tuned for more farming fun and delicious discoveries!

SINK AND FLOAT

At Aadyant we introduced our little ones to the wonder of science activity: sink and float! In this playful activity, By putting some objects in water, children explored why heavy weight objects sink while light weight objects float in water. It's a hands-on adventure, promoting sensory exploration and early scientific curiosity.

ACADEMICS

FLOWERS AND ROSE PLANTING 🌻 🌹 🌻 🌹

Flowers are more than just a feast for the eyes and the nose; they are the masterpieces of nature's artistry and the cornerstone of our ecosystem's diversity. From the tiniest bloom to the grandest blossom, flowers speak a universal language of beauty, evoke emotions. Flowers vary immensely in color, size and form. The teachers of Aadyant school chose a few of these nature's abundant gifts like the Lotus, Rose and Marigold, to educate the children of playgroup and pre nursery about its immense value to mankind. The children were eager to see, touch and smell the flowers. They were enthralled by the vibrant colours and fragrances. Their use in making perfumes and coloured dyes were explained along with the positive energy of flowers which makes everyone feel exhilarated and happy when they receive it. Gardening with flowers brings numerous benefits. Whether you're planting a single flowerbed or designing an extensive garden, the act of growing flowers can be a deeply satisfying endeavor. To further reinforce and make things exciting, the children of playgroup planted a 'Rose stem' each, in the garden and watered it. Our endeavor was not only to enhance our surroundings but also to contribute to nurturing nature and continuing to cherish and protect the delicate blooms that grace our world.

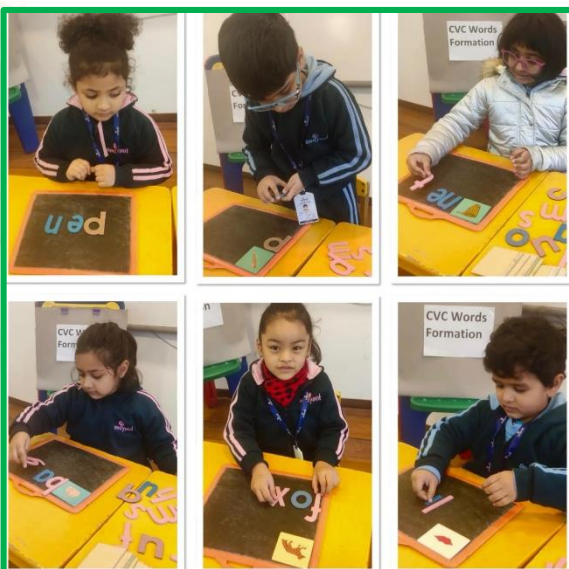

ACADEMICS

NUMBERS

A world of numbers and beyond...Numbers are introduced to the children of playgroup and pre Nursery in a fun and engaging way to foster a positive relationship with mathematics from an early age. We start with pre number concepts moving on to concrete objects like counting toys in the class counting the number of children present ,the number of chairs, the number of tables etc. This way they can relate and use the numbers in their daily life. We use songs and rhymes that involve counting and number recognition. Songs like 5 Little Monkeys Jumping On The Bed , 12345 Once I caught a fish alive, not only introduce numbers but also help the kids with counting skills and rhythm. Further , we use visual aids such as number flash cards ,posters or books with colourful illustrations. Visual representations help children associate the written numeral with its quantity and reinforce their understanding. As they move on to primary different teaching aids are used like foam blocks which are used to teach addition and subtraction, ganit mala and colourful blocks so that children learn and practice in a play way method.

CVC WORDS

The very foundation of reading starts with the cvc words taught to the kids at their early learning years. CVC meaning consonant vowel Consonant words. The kg class had their playful activity related to the cvc words where they had to form the cvc words with the help of the alphabet. A group of picture flash cards were kept in front of the child and he or she had to form the cvc words with the help of the alphabets given example bat, cat, mat, nip, top etc. This fun activity gave the teacher a insight on how well the kids had understood the concept and the children also enjoyed the same.

ACADEMICS

MONTESSORI-MATHS

Mathematics is an integral part of every individual's life. The Montessori mathematics provides children with the opportunity to build a firm foundation for the forthcoming abstract and complex mathematical concepts. There are some basic examples of Montessori mathematics activities for pre schoolers. These are Number Rods, Sandpaper Numerals and Spindle Box. Number rods are the ones which introduce the concepts of numbers and counting to children. And with the help of Spindle box and Sandpaper Numerals children can easily recognize the numerals and discriminate between different numbers. Similarly, Sandpaper Letters and Flash Cards are the another way to introduce the letters in Montessori classroom. The teacher may have a large tray with sandpaper letters covered in sand, rice or salt so children can dig through the bin, find the letters and identify the sounds.

SPORTS

Playing sports on daily basis help in developing the mental skills. It enhances the overall personality of an individual by making students fit and active. Aadyant sports classes are given for all levels, from playgroup to primary classes. Whereas in playgroup and pre - nursery , children play with cones and hula hoops , playing games keep them physically and mentally engaged. On the other hand, nursery upwards children enjoy playing with hurdles and football and are eager to learn new tactics that will help them gain confidence and skills.

REPUBLIC DAY CELEBRATIONS

The primary classes brought the school alive with their vibrant Republic Day celebrations on 25th January! Students of class 3 and 5 presented a delightful skit! They told the story of how India, after gaining independence on 15th August 1947, worked on creating a set of rules, called the Constitution, to guide our country. On 26th January 1950, this amazing document was finally adopted, making India a Republic! The young performers stole the show with their enthusiasm and infectious joy, dressed in tri colour clothes, representing the unity in diversity. The patriotic spirit filled the air as the playgroup and pre-nursery classes also joined in the Republic Day celebrations! Tiny tots, dressed in their vibrant tricolors (orange, white, and green), skipped in with excitement. The classrooms transformed into creative havens, buzzing with the joy of making crafts. Little hands worked together, guided by their teachers, to craft beautiful tri-colour decorations and tokens that reflected the national spirit.

GRADUATION DAY

Graduation day is one of the signature events of Aadyant school. The event was celebrated with great enthusiasm this year also. It was an emotional journey for the parent teacher both. Children also did a small dance performance and received their passing out certificates from our school Principal Ms. Irmin Kathuria in beautiful graduation gowns. They also received individual titles according to their performance throughout the year. Overall it was a very eventful day full of joy of accomplishment and pain of saying goodbye.

★ ANNUAL DAY ★

Aadyant School celebrated its Annual Day on the theme 'Magical 7" on its premises on 24th February amidst great splendor and zest. All time great cricketer Shri Kapil Dev was the chief guest and Ms Manjeet Kaur Head Mistress of GD Goenka Junior Wing Vasant Kunj was the guest of Honour who had graced the occasion. The programme commenced with the welcome of the guests followed by the lighting of the Ceremonial lamp by the Chief Guest. Our Principal, Ms Irmin Kathuria welcomed the guests and the gathering. She shared the school's achievements through the Annual Report of the past session. Our school believes that all students participate because each child is unique and important to us, and we believe that every child should be given the opportunity to develop and showcase talents, to harness their skills and attributes through such public performances. Overall, the goal of having an annual day at school is to create a harmonious connection between parents and the school and their children, as well as to allow them to appreciate and enjoy their child's talent.

'Magical 7' surpassed all expectations. Our students from different classes that is from the youngest age group to the senior most class, captivated the audience with their spectacular acting and dancing skills. They showcased their talents depicting the magnificence of number 7 in the seven notes of music, seven chakras, constellations, continents and the seven dwarfs in the fairy tales. We are thrilled with the overwhelming success of Magical 7. Our Annual Day inspired everyone to understand and to never underestimate oneself.

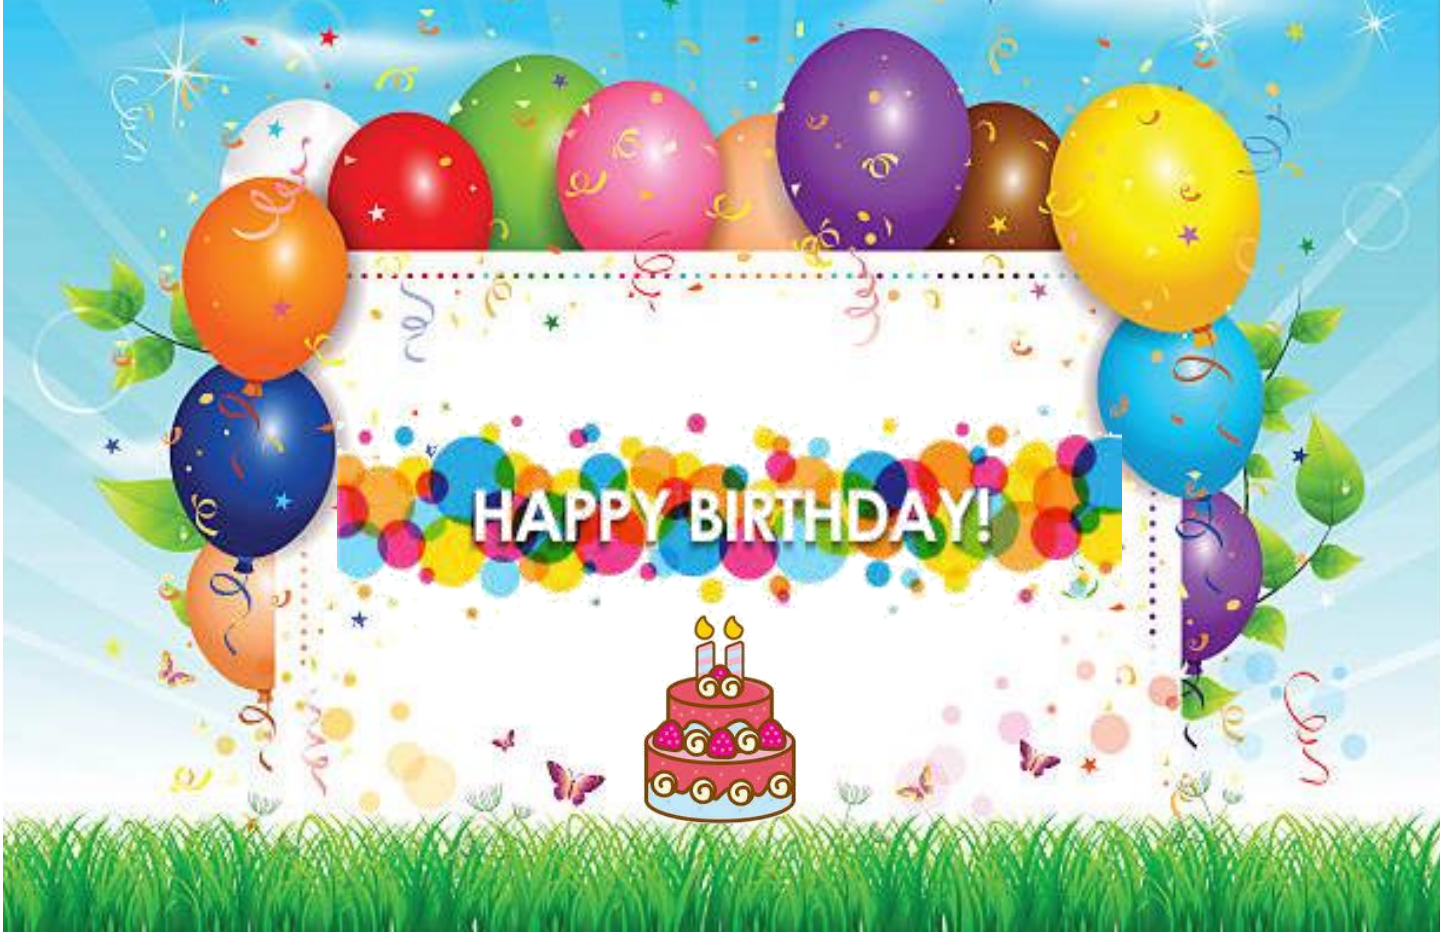

SCHOOL PICNIC TIME

School picnics offer students a break from routine, fostering a sense of camaraderie. Outdoor settings stimulate learning in a more relaxed environment, enhancing education beyond classrooms. Team-building activities during picnics encourage cooperation and communication among students. The experience provides a practical understanding of natural elements and environmental awareness. Picnics cultivate social skills, helping students develop friendships and interpersonal connections. Exposure to diverse recreational activities promotes a holistic approach to physical and mental well-being. Picnics serve as a platform for teachers to connect with students outside the academic context, creating a more open and trusting relationship. Overall, school picnics contribute significantly to students' holistic development. On 12th of March our school also organized a picnic for pre nurseries and Play group, Pre nurseries went to Nandan Park and Play Group went to Vasant Vatika. All the children enjoyed and were very happy with the fun activities which were organized there.

BIRTHDAY CELEBRATIONS **IN JANUARY**

1st January - Hunnar
3rd January – Krithvik
4th January - Samarveer
5th January – Pushkal
12th January – Bhaavya
13th January – Kiaan
17th January – Ayaansh
21st January – Ridwan
21st January – Shaurya
22nd January – Ayansh
23rd January – Deveer
25th January – Aviraj
26th January – Aarvi
27th January – Inaya
28th January – Raihan
29th January – Mannat

BIRTHDAY CELEBRATIONS **IN FEBRUARY**

3rd February – Zeynep
4th February – Aadya
5th February – Nirvan
5th February – Mehnaaz
6th February – Aarvi
7th February – Raunav
8th February – Reyansh
8th February – Anaisha
9th February – Taania
14th February – Vedaant
14th February – Soham
16th February – Garv
18th February – Nyra
19th February – Niyah
26th February – Aarin
27th February – Sarthak

BIRTHDAY CELEBRATIONS **IN MARCH**

2nd March – Adishree
6th March – Hridaay
7th March – Vedant
9th March – Advait
11th March – Medant
13th March – Aaradhya
13th March – Devik
13th March – Aditya
14th March – Vadhishtha
16th March – Zain
18th March – Shasak
21st March – Lokansh
26th March – Aaradhya
27th March – Aditya
31st March – Yashika
